OSP® Furniture veneer casegoods are to be cleaned with a solution of 9 parts water and 1 part rubbing alcohol. Laminate casegoods can be cleaned with the same solution of 9 parts water and 1 part rubbing alcohol or a non-abrasive cleaner, such as Windex. Always use a clean, non-abrasive, soft cloth.

Natural Wood is made up of millions of cells relying on absorption of pigments and dyes. The absorption rate and capacity of absorption is affected by numerous factors. While each manufacturer has its own processes and wood types and although they may call their finishes by the same name, all natural wood products are subject to variations in shade and product from different manufacturer's and may not exactly match with each other (i.e. Cherry, Mahogany, etc.).

Care and Cleaning of Leather and Vinyl Surfaces:

Many of our products feature leather and vinyl materials that may require some maintenance. For cleaning, we recommend cleaners and conditioners that are made for leather and vinyl surfaces (EX: "Rejuvenate" or similar products). Begin with a spot test on a small, discreet area to ensure the cleaner will not damage or discolor the upholstery. Once proven safe, apply the cleaner and gently scrub the surface with a microfiber cloth. After thoroughly washing the fabric, spray the conditioner and use the cloth to buff and rehydrate the coat for a pristine appearance.

**Due to differences in dye batches and variations in printing as well as viewing environments and uneven color fading there will be slight variations in color. Exact matching may not be possible.

Grain, color and finishes

Variation of grain and color are natural, inherent characteristics of wood, a living material. This variation is part of the beauty of real wood and anticipated in wood furnishings. Therefore, OSP® Furniture is not warranted to match in grain or color or texture. It is a natural phenomenon for wood grain to change in color as it ages, and wood finishes are not warranted for color-fastness.
