- Use a damp cloth to clean other surface areas.
- Check screws for tightness, clean and lubricate moving parts such as chair controls and casters every three months.

### CARE AND CLEANING OF LEATHER AND VINYL SURFACES:

Many of our products feature leather and vinyl materials that may require some maintenance. For cleaning, we recommend cleaners and conditioners that are made for leather and vinyl surfaces. Begin with a spot test on a small, discreet area to ensure the cleaner will not damage or discolor the upholstery. Once proven safe, apply the cleaner and gently rub in circular motion the surface with a microfiber cloth. You may choose to apply a conditioner and use the cloth to buff and rehydrate the coat for a pristine appearance.
